**Re: Draft 2019 Fourth Quarter (2019 Q4) Sampling and Results Summary Letter Report
Five Points PCE Plume Site
Davis County, Utah
Work Assignment No. 06 under Contract No. 146237**

Dear Mr. Howes:

Please find enclosed one pdf version of the Draft 2019 Fourth Quarter (2019 Q4) Sampling and Results Summary Letter Report for the Five Points PCE Plume Site. A native version of the text and laboratory electronic data deliverable (EDD) are also included for your review and commenting convenience. However, the laboratory data package is not included due to size of the file, it will be included with the final version. The pdf version and the native text and EDD are also being emailed to Sam Garcia at the EPA.

We appreciate the continued opportunity to provide professional services to your agency. If you have any questions regarding this deliverable, please do not hesitate to contact me at (801) 904-4073.

Sincerely,

AECOM

Tammi Messersmith, PE
Project Manager
